About NDIS Websites

What is an NDIS Website?

An NDIS website is a tailored digital platform designed specifically for NDIS service providers in Australia. It helps providers showcase their services, build trust with participants and their families, and streamline enquiries and referrals — all while meeting NDIS compliance and accessibility standards.

Why Choose a Professional NDIS Website?

- Establishes credibility with participants and their families

- Showcases your services, values, and team

- Allows easy referrals and enquiries online

- Helps you get found through Google and Bing

- Meets NDIS compliance for accessibility and information clarity

Key Features of an NDIS Website

- 🛡️ NDIS-compliant design (accessible fonts, contrast, structure)

- 📄 Services page with categories like Core Supports, Capacity Building

- 📥 Referral and contact forms with spam protection

- 📞 Clickable phone/email buttons for mobile users

- 📍 Location map and integrated Google reviews

- 📰 Blog/News section for updates and participant education

- 📸 Professional image placeholders and testimonial sections

- 📱 Responsive design – perfect on mobile, tablet, and desktop

🛠️ *Add-ons: Hosting, Logo Design, Business Email – Available on request*

📅 *Timeline: 7–15 working days depending on the package*

What's Included in Our Service

1. Personalized attention and clear communication

2. Fast, SEO-ready, mobile-responsive site

3. One year technical support*

4. Easy-to-manage backend (WordPress)

5. Lifetime access to training videos and guides

6. Optional assistance with domain, hosting & email setup

Our Process

1

Plan

We start with a discovery session to understand your goals, services, and audience. Together, we finalize the sitemap and gather the content.
A clear roadmap ensures we build exactly what you need.

2

Design and Development

We create a clean, accessible, and visually appealing layout.
Your brand colors, logo, and tone guide the look and feel.
We focus on both aesthetics and user experience.

3

Revise

You review the initial draft and share your feedback.
We offer 2–3 rounds of revisions (depending on the package).
Every change ensures your satisfaction before launch.

4
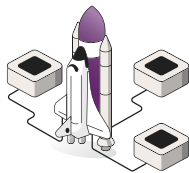

Deployment and Launch

Once approved, we go live with domain, SSL, and speed checks.
We ensure the site is indexed and tested across devices.
Your website is now live, secure, and ready to serve.

5

Support

We don't just disappear after launch.
You get one year of support and training access.
Need help? We're just a message away.

Additional Information

What's Not Included by Default

- NDIS Provider Registration Assistance
- We do not handle the NDIS registration process, but we can recommend consultants if needed.
- Content Writing
- We'll structure and design pages, but written content must be provided by you. Content writing is available as an add-on.
- Photography or Video Production
- Placeholder images will be used unless you provide your own. Licensed image sourcing available on request.
- Ongoing Digital Marketing
- SEO setup is included in most packages, but monthly SEO, ads, or social media are separate services.
